BEER, BEER, BEER!

THE Commissioner of Agriculture, in his report for the year 1865, speaks as follows:

"There can be no doubt of the general adulteration of all malt liquors. In England and other countries, where heavy penalties are imposed, and an increasing vigilance practiced to detect and punish such frauds, by a system of inspection of all malt liquors manufactured before exposed to sale, the practice is very common. How much more in this country, where there are no laws on the subject, and no officer to carefully analyze the products of the brewery? Some years ago, Professor Mapes, of New York, analyzed the beer from a dozen different breweries, and all were found adulterated with noxious substances. It is said that the sale of drugs to brewers, is a profitable part of the trade. This is perfectly infamous. Cocculus indicus, (fish-berry), nux vomica, (dog-bush), from which strychnine is obtained, are some of the deleterious substances found in beer. These are potent poisons, and the brewer found using them should be drowned at once in one of his own vats. The British Parliament passed a law to prevent this nefarious business. The following is an extract: 'No druggist, vendor of dealer in drugs, or chemist, or any other person, shall sell or deliver to any licensed brewer, dealer in or retailer in beer, knowing them to be such, or shall sell or deliver to any person on account of, or in trust for, any such brewer, dealer, or retailer, any liquor called by the name of or sold for coloring, from whatever material the same may be made; or any material or preparation other than unground brown malt, for the darkening of the color of wort or beer, or any molasses, vitriol, honey, quassia, cocculus indicus, grains of paradise, Guinea pepper, or opium, or any extract or preparation of molasses, or any article or preparation to be used in wort or beer for or as a substitute for malt or hops; and if any druggist shall offend in any of these particulars, such preparation, &c., shall be forfeited, and may be seized by any officer excise, and the person so offending shall forfeit five hundred pounds.'

"Under this law, very many druggists and brewers were brought to grief, and yet the practice continues. Unless the American people are ready to admit the immaculate purity and innocence of American brewers, they must be content, while drinking their beer, to cherish the belief that they are at the same time guzzling some narcotic poison or damaging medicine. In view of the unprecedented growth of the barley crop; of the great increase of the number of malsters and brewers; of the vast unknown quantities of beer that are drunk in every city and almost every town on the continent; it is the dictate of sound wisdom, that the attention of legislators should be called to the subject of the adulteration of our malt liquors, and severe penalties should be inflicted as a preventive."

P. S.—JUDGE FOR YOURSELF. MY BEER IS PURE.
